

# CCIP General Info

## What is a CCIP?

A Contractor Controlled Insurance Program (CCIP) provides consolidated insurance for the Owner, General Contractor, and all eligible Subcontractors (including lower-tier) through one insurance program covering General Liability, Excess Liability, Workers' Compensation and Employer's Liability.

## What You Need to Know

The CCIP provides Workers Compensation, Employer's Liability, General Liability and Excess Liability at the jobsite for all eligible subcontractors.

Enrolled subcontractors still provide their own Automobile Liability, Equipment Coverage and off-site coverage for Workers' Compensation, Employer's Liability, General Liability and Excess Liability, as well as Professional Liability and Pollution Liability if required by contract.

Generally on New South CCIP projects, subcontractors of all tiers bid without the cost for their on-site Workers' Compensation, Employers Liability, General Liability, Excess Liability. Please refer to your solicitation for complete instructions.

It is important for subcontractors to provide a list of all lower-tier subcontractors in the buy-out meeting.

Subcontractors complete the Enrollment Form 3 along with the subcontract documents and provide their payroll on a monthly basis.
